Spacers System PLATEAU[®]

AGGRESSIVE TEETH PATTERNS

The PLATEAU Spacers System is a comprehensive system that is ideal for a posterior or transforaminal approach. The PEEK spacers are available in multiple footprint and heights to accommodate various patient anatomies and pathologies to promote fusion.

Key Features and Benefits are:

- » Straight and curved implants in parallel and lordotic versions
- » Bullet tip simplifies insertion
- » Aggressive tooth pattern prevents graft migration
- » Radiopaque tantalum rod markers improve intraoperative visualization
